SUMMARY

Senior Full Stack Engineer with 7 years of professional experience designing, developing, maintaining, and scaling secure, high-performance web applications and RESTful/ GraphQL APIs. Strong expertise in PHP, Laravel, CodeIgniter, Laravel Nova, Node.js, NestJS, JavaScript, TypeScript, MySQL, PostgreSQL, MongoDB, and cloud platforms.

Experienced in end-to-end application development including backend architecture, RESTful API development, responsive frontend applications, third-party integrations, payment gateways, OAuth/JWT authentication, webhooks, database optimization, CI/CD pipelines, cloud deployments, application security, and production support.

Hands-on experience with modern frontend and backend technologies including React.js, Redux, Vue.js, Nuxt.js, Angular.js, Node.js, NestJS, Python, Laravel, and CodeIgniter.

Experienced in AI-assisted software development using Claude, Cursor, GitHub Copilot, and ChatGPT for code generation, code refactoring, debugging, code review, test generation, technical documentation, SQL assistance, API development, technical research, and development productivity.

Proven experience working as a Senior Engineer and Team Lead, collaborating with cross-functional teams, mentoring developers, conducting code reviews, participating in architecture decisions, troubleshooting production issues, and delivering scalable and maintainable software solutions.

SKILLS

- **Backend:** PHP, Laravel, Laravel Nova, CodeIgniter, Lumen, Node.js, Python, .NET, Nest.js
- **Frontend:** JavaScript, TypeScript, React.js, Redux, Vue.js, Nuxt.js, Angular.js, jQuery, AJAX, HTML5, CSS3, Bootstrap, Tailwind CSS
- **Database:** MySQL, PostgreSQL, MongoDB, PL/SQL Database Systems, Workbench
- **API & Integration:** RESTful APIs, GraphQL, REST API Development, JSON, OAuth, JWT, Webhooks, Third-Party API Integration, Payment Gateway Integration
- **Architecture & Engineering:** MVC Architecture, Object-Oriented Programming, API Architecture,

Database Design, Database Optimization, Query Optimization, Authentication, Authorization, RBAC, Cron Jobs, Queues, Background Jobs

- **Cloud & DevOps:** AWS EC2, AWS S3, Google Cloud Platform (GCP), Contabo, Heroku, Git, CI/CD Pipelines
- **CMS & E-commerce:** Drupal 9/10/11, Joomla, WordPress, WooCommerce, ACF, Shopify, Squarespace, Kajabi, Webflow, Netsetteler.
- **Testing & Quality:** Unit Testing, API Testing, Debugging, Code Review, Performance Optimization
- **AI-Assisted Development:** Claude, Cursor, GitHub Copilot, ChatGPT, AI-Assisted Coding, Code Generation, Code Refactoring, Debugging, Code Review, Test Generation, Technical Documentation, Technical Research
- **Development Practices:** Agile/Scrum, Code Review, Version Control, Technical Documentation, Team Collaboration, Mentoring

WORK HISTORY

Senior Full Stack Engineer | Fifty-Five Technologies, Jaipur, Rajasthan | Nov 2024 – Sep 2026

- Design, develop, and maintain scalable and secure web applications using **PHP, Laravel, Laravel Nova, CodeIgniter, Lumen, Node.js, and NestJS**.
- Develop scalable backend services and **RESTful and GraphQL APIs** using Laravel, Node.js, and NestJS for web and application integrations.
- Build responsive frontend applications using **JavaScript, TypeScript, React.js, Redux, Vue.js, Nuxt.js, Angular.js, Bootstrap, Tailwind CSS, jQuery, and AJAX**.
- Design and optimize database solutions using **MySQL, PostgreSQL, and MongoDB**, including query optimization and performance improvements.
- Develop secure integrations using **OAuth/JWT authentication, webhooks, JSON APIs, third-party APIs, and payment gateway integrations**.
- Develop and customize business and e-commerce platforms using **WordPress, WooCommerce, ACF, Drupal, Shopify, Squarespace, Kajabi, and Webflow**.
- Deploy and maintain production applications across **AWS EC2, AWS S3, Google Cloud Platform, Contabo, and Heroku** environments.
- Implement and maintain **Git-based workflows and CI/CD pipelines** for reliable software delivery and deployment.
- Use **Claude, Cursor, GitHub Copilot, and ChatGPT** as AI-assisted development tools for code generation, refactoring, debugging, code review, test generation, documentation, SQL assistance, API development, and technical research.
- Leverage AI-assisted development workflows to improve development productivity while reviewing generated code for **correctness, security, maintainability, and performance**.
- Troubleshoot complex application issues, production incidents, API problems, database issues, and performance bottlenecks.
- Participate in **system architecture, technical planning, code reviews, design discussions, and application performance optimization**.
- Collaborate with product managers, UI/UX designers, developers, and stakeholders to deliver

scalable business solutions.

- Mentor developers and contribute to engineering standards, coding practices, technical documentation, and maintainable application architecture.

Full Stack Developer (Team Lead) | Wobindia / Wobitech, Australia | Oct 2023 - Nov 2024

- Led full-stack development and application maintenance using **PHP, Laravel, CodeIgniter, Node.js, JavaScript, TypeScript, and MySQL**.
- Developed scalable backend services and **RESTful and GraphQL APIs** using PHP/Laravel and Node.js.
- Designed and integrated **third-party APIs, payment gateways, JSON-based integrations, OAuth/JWT authentication, and webhooks**.
- Developed responsive frontend applications using **JavaScript, TypeScript, Bootstrap, jQuery, AJAX, HTML5, and CSS3**.
- Built and customized **WordPress, WooCommerce, and ACF** solutions, including custom themes, plugins, and e-commerce functionality.
- Worked with **MySQL and MongoDB** for application data management, database queries, and backend functionality.
- Managed application deployments and production environments using **AWS EC2, AWS S3, Git, and CI/CD pipelines**.
- Participated in application architecture, technical planning, code reviews, debugging, and performance optimization.
- Used modern development and AI-assisted engineering practices to improve development productivity, troubleshooting, code quality, and documentation.
- Led technical discussions and provided technical guidance and mentoring to team members.
- Collaborated with clients, designers, developers, and stakeholders to deliver scalable and maintainable software solutions.

Senior Full Stack Developer | Dynamic Dreamz, Ahmedabad, Gujrat | Jan 2021 - Sep 2023

- Developed and maintained scalable web applications using **PHP, Laravel, CodeIgniter, Node.js, Python, MySQL, PostgreSQL, and MongoDB**.
- Developed backend services and **RESTful and GraphQL APIs** using Laravel, CodeIgniter, and Node.js.
- Integrated **third-party APIs, payment gateways, OAuth/JWT authentication, webhooks, and JSON-based services**.
- Developed responsive frontend applications using **JavaScript, React.js, Vue.js, Bootstrap, Tailwind CSS, jQuery, AJAX, HTML5, and CSS3**.
- Worked with modern JavaScript development practices and frontend frameworks to build

reusable and responsive application interfaces.

- Developed and customized **WordPress, WooCommerce, Joomla, Shopify, Squarespace, Kajabi, and Drupal** applications.
- Designed and optimized database queries and application workflows using **MySQL, PostgreSQL, and MongoDB**.
- Implemented application enhancements, debugging, production support, performance optimization, and security improvements.
- Managed deployments and application environments using **AWS, Google Cloud Platform, Contabo, and Heroku**.
- Used **Git and CI/CD practices** for source-code management, release management, and application deployments.
- Worked with AI-assisted development tools where applicable to support **code development, debugging, refactoring, technical research, and development productivity**.
- Collaborated with clients and cross-functional teams to understand requirements and deliver reliable and scalable software solutions.

Senior Web Developer | Qode Maker, Mohali, Punjab | Jan 2018 - Dec 2020

- Developed and maintained scalable web applications using **PHP, CodeIgniter, MySQL, and MVC architecture**.
- Developed backend functionality, business logic, database operations, and reusable application components.
- Designed and integrated **RESTful APIs, third-party APIs, JSON-based services, and payment gateway integrations**.
- Built and customized **WordPress, WooCommerce, themes, plugins, and CMS-based solutions**.
- Developed responsive websites using **HTML5, CSS3, Bootstrap, JavaScript, jQuery, and AJAX**.
- Developed business websites and online learning platforms using **Squarespace and Kajabi**.
- Performed application debugging, troubleshooting, database optimization, and performance improvements.
- Implemented SEO-friendly, responsive, and cross-browser-compatible web solutions.
- Used **Git** for version control and collaborated with designers, developers, and project stakeholders.
- Delivered client-focused web solutions while maintaining application quality, security, performance, and maintainability.

Junior Web Developer | Hi-Tech International, Ludhiana, Punjab | Jan 2016 - Dec 2017

- Developed and maintained web applications using **PHP, MySQL, and CodeIgniter**.
- Assisted in backend development, database management, debugging, and application maintenance.
- Customized **WordPress, WooCommerce, ACF, and Joomla** websites, including theme modifications, plugin configuration, and CMS customization.
- Developed responsive and cross-browser-compatible interfaces using **HTML5, CSS3, Bootstrap, JavaScript, jQuery, and AJAX**.
- Assisted with **RESTful APIs, third-party service integrations, and JSON-based data exchange**.
- Supported website maintenance, debugging, SEO optimization, and performance improvements.
- Collaborated with senior developers and project teams to understand requirements and deliver client solutions.

EDUCATION

MCA | Lovely Professional University | May 2013 - Oct 2016

BCA | Punjab University | May 2010 - May 2013

12th Commerce | Punjab School Education Board | Apr 2009 - Mar 2010

10th | Punjab School Education Board | Apr 2008 - Apr 2009

CERTIFICATION

Programming Essentials in PHP | Ludhiana, Punjab

Precision in project delivery | Jaipur Rajasthan

Customer Hero | Jaipur Rajasthan

Performance Excellence | Jaipur Rajasthan
